MANITOBA POPULATION ESTIMATES - January 1, 2007

	January 07	October 06	January 06
POPULATION	1,180,004	up 1,513	up 5,351
NET MIGRATION	**(January to December)**	**2006**	**2005**
	Interprovincial	-7,830	-9,880
	Total	1,603	-2,386

Manitoba's total population was estimated at 1,180,004 persons as of January 1, 2007, up 1,513 persons from the October 1, 2006 estimate. Population growth continues on an annual basis, with Manitoba's increase since January 1, 2006 estimated at 5,351 persons, or 0.46%. A large portion of Manitoba's estimated population gain of 5,351 persons over the past 12 months was the result of immigration (10,040 persons). The immigration flow of 10,040 from January 1, 2006 to December 31, 2006 is the best since at least the January 1, 1972 to December 31, 1972 period.

We recorded an estimated net loss of 7,830 persons from other provinces through interprovincial migration in 2006, an improvement of 2,050 persons from the net loss of 9,880 persons in 2005.

Interprovincial migration is generally offset to some degree by other types of population movement (international migration, Canadian citizens returning from abroad, non-permanent residents and Canadians temporarily abroad). When these other forms of population movement were combined with interprovincial migration, Manitoba recorded an overall net migration gain of 1,603 persons in 2006. This net gain of 1,603 persons marked an improvement of 3,989 persons from the 2005 net migration loss of 2,386 persons.

Net international migration for 2006 was 8,663 persons, up from 6,729 persons in 2005. This improvement is due to the increase in immigration that went from 8,096 persons in 2005 to 10,040 persons in 2006.
